Subject: Regulations

The proposed Environmental Regulations can be found on the EWMP website at <https://sbt-ewmp.com/regulations/>

We are working on getting a page set up that will allow the reader to provide comments on them electronically. We will keep you updated as that becomes available.

We put out a Public Notice last week in the ShoBan News that copies could be picked up at the Land Use Department. We also need to get information on who receives them so we can make sure everyone has an opportunity to provide comments. We will be sending out another notice again in the ShoBan News and the Idaho State Journal, a little later.

If you have any questions or comments, please let me know.

Thanks

Kelly

We are working on the Public Hearing to be in the first part of January and then working on comment/resolutions.

Thanks everyone for your help and cooperation, it's greatly appreciated.
